

## NEWS RELEASE

### **Stan Hywet is Now Open For the 2020 Season**

*Theme for the season is Winds of Change*

June 26, 2020 – Akron, Ohio – After a delay due to the pandemic, Stan Hywet Hall & Gardens is now open for the 2020 season. The season theme, **Winds of Change**, is an exploration of the expansive social transformation in America in the aftermath of World War I. In the gardens, a sculpture exhibit celebrates the 100th anniversary of women’s suffrage. The new exhibit in the Gate Lodge *Henrietta Seiberling: A Spark for a Movement* will be completed in early July.

To create a safer environment, social distancing practices have been put in place, and all tours are currently self-guided. On Tuesdays, the estate opens one hour earlier at 9 am, to accommodate seniors and immune-compromised guests. Stan Hywet is located at 714 North Portage Path in Akron, Ohio.

The Manor House exhibit, **Winds of Change**, immerses guests in a display that is both educational and relevant. Through a lens of “then vs. now,” guests will learn about the changing social and political attitudes of the 1920s — suffrage, immigration, prohibition, technology & communication, fashion & hygiene and cost of living — and be able to compare these changes with today’s social and political climate. On display throughout the gardens is an exhibit of the same name featuring kinetic sculptures created solely by female artists (SEE ATTACHED LIST FOR DETAILS), in celebration of the 100th anniversary of the 19th amendment, guaranteeing American women the right to vote.

*Henrietta Seiberling: A Spark for a Movement* opens in the Gate Lodge in July. With new information from significant research, this exhibit focuses on Henrietta Buckler Seiberling’s pivotal role in the formation of Alcoholics Anonymous. Her living space in the Gate Lodge has been recreated, with key rooms in the house furnished as they were in the 1930s, when she lived there with her three children. The kitchen, previously off limits to visitors, has been restored to its appearance during that time, and is part of the exhibit.

## WINDS OF CHANGE GARDEN EXHIBIT

To commemorate the 100th anniversary of women's suffrage in the U.S., thirteen unique sculptures created by local female artists are on now display through September. Each installation incorporates a kinetic component, using wind or motion as a core element of the design —playing off the title of this year's theme, **Winds of Change**. The sculptures have been designed by five local artists, including Shelley Funai, Kimmy Henderson, Nicole Schwan, Michelle Wilson, and Jennifer Winkler. *See artist's bios next page.* Most sculptures in the exhibit are for sale through Molly's Shop.
