

OHIO MART 2019: Rules and Guidelines

Artwork

- All work must be the original design of the artist(s) and handcrafted by the artist(s).
- Any commercially produced parts used in a work must play a subordinate role and may not be sold separately.
Examples of acceptable work: Floral arrangements of the artist's own original design assembled by the artist using commercially produced flowers and containers; jewelry made with commercially produced parts but of the artist's own original design.
Examples of unacceptable work: Photographs framed or used by the artist in some way that were not taken by the artist; commercially produced Christmas trees decorated with commercially produced items; any item made by simply assembling commercially produced pieces and not of the artist's own original design; any item of the artist's own and original design but made entirely by machine.
- Other unacceptable items include any work created by a person other than the artist; greenware pottery; sculpture from molds; mass-produced factory art and jewelry; imports or buy-to-sell items.
- The Exhibitor Committee reserves the right to exclude any work that does not meet its guidelines.
- The artist(s) will be permitted to exhibit only the specific type of work accepted by the jury. Jewelry, for example, cannot be exhibited with another medium without being screened and accepted by the Exhibitor Committee.
- The artist will be asked to remove from the show any items the Exhibitor Committee considers in violation of the above guidelines. If the bulk of the artist's work is in violation, the artist will be removed from the show and forfeit all fees.
